

**InformatiQ**

**STRATEGIC SOLUTIONS  
INTELLIGENT IT SERVICES**

## WHO ARE WE?

We've been activating in the IT&C market for over 18 years under different commercial brands.

**InformatiQ** is the unification of all these different brands with the scope of providing **full service and full stack solutions**.

We work for companies, institutions, freelancers, VIP's and private individuals from 16 countries and 3 continents.

We've implemented over 700 technical projects so we have the necessary know-how to take on your project and we are thrilled for taking **new challenges**.

The experience and diversity of our team allows us to cover all aspects of a technical project.

***"There are no limits to the project that you wish to implement. If you have a great idea, we want to hear it!"***

Each day IT systems become more important for the workflow of every company. Proper exploitation and resource optimisation is critical in order to reach your targets.

The fact that we can manage all technical aspects of your project allows you to forget the laborious maintenance tasks so that you can dedicate all your time to the main activities of your company.
